

A HOLDER FOR SECURING ARTICLES ON A DASHBOARD AND THE HOLDER BE- COMES A HANDBAG OR SHOULDER BAG AFTER RELEASED FROM THE DASH- BOARD

Abstract

A holder comprising a case (14) and three hooked devices (20, 22, 24) on belts (16, 18). The holder adheres on a dashboard (*FIG. 2*) by hooking on windshield vents (10, 12) and center vents (8). The holder becomes a handbag (*FIG. 3A*) or shoulder bag (*FIG. 3B*) after released from the dashboard.
